

NEERAJ UPADHAYAY

Cybersecurity Enthusiast & Full Stack Developer

- +91-6200592390 | neerajupadhayay347@gmail.com | India, Buxar | <https://www.linkedin.com/in/neeraj-upadhayay-a0958a246/>
| Neerajupadhayay2004 | <https://portfolio-1-bd7h.vercel.app/>

Summary

Cybersecurity enthusiast with strong programming skills and hands-on experience in full-stack development. Passionate about AI, Web3, and ethical hacking. Continuously learning through real-world projects, internships, and technical events to build secure, scalable solutions. 5x Hackathon Winner and published researcher (Springer Nature) with expertise in AI-powered cybersecurity, blockchain integration, and full-stack development.

Education

- Bachelor of Technology in Computer Science | **IILM University | Greater Noida** | India | July 2023 - Present (CGPA=7.05)
- Matriculation (CBSE) in | SS Convent School | Buxar | , India | March 2020 - March 2021
- Intermediate of Science (BIHAR in Mathematics | PC College | Buxar | , India | May 2021 - May 2023

Internship Experience

Cyber Security Intern (Remote) | Navodita Infotech ,May 2025 - May 2025

- Collaborated with professionals on real-world threat detection and mitigation projects.

Frontend Developer(Remote) | kasper infotech June 2025 - August 2025

- Enhanced user experience by implementing responsive design.

Cyber Security Intern (Remote) | Happieloop Technology, February 2026 - April 2026

- Network security analysis,vulnerabilityassessment, and security monitoring.

Java Full-Stack Intern (Remote) | | Maincrafts Technology, February 2026 - March 2026

- Developed full-stack Java Applications;received Letter of Recommendation for performance.

Technical Skills

Cyber-security & Ethical Hacking: Ethical hacking , vulnerability assessment, penetration testing,Web-Security.

Full Stack Development:

- **Frontend:** HTML, CSS, JavaScript, Type Script (React)
- **Backend:** Node.js / basic Flask,Django,Python,Supabase, Firebase
- **Database:** MySQL, MongoDB,PostgreSQL

Artificial Intelligence: Basic ML concepts, AI models using Python (NumPy, Pandas, Scikit-learn)

Blockchain: Basic knowledge of blockchain,Solidity,Polygon,KALP(Kwala Network)

Programming Languages: Python, Java, Type Script, JavaScript,C

Projects

Cyber Shield: An AI-Powered Firewall with Web3 Integration for Next-Generation Cyber Defense

- **Live Demo:** <https://dashboard.sarva.cloud/dashboard> **August 2025 - October 2025**
- Developed an AI-powered firewall with Web3 integration and a customizable OS, enabling real-time threat detection, automated policies, and secure logging (97.8% accuracy).

Colosion - Smart Collision Avoidance & Rider Safety System

- **Live Demo:** <https://collosion.netlify.app/> **January 2026 - January 2026**
- Developed a full-stack AI-based collision prevention system featuring real-time alerts, camera detection, navigation, and offline support; deployed as PWA and cross-platform mobile app.

SecureSurfBot - Phishing Detection System | Repository

May 2025 - May 2026

- Developed SecureSurfBot, an AI-based phishing detection system using rule-based and ML techniques to identify malicious websites and emails with real-time prediction.

Certifications

- Certified Phishing Prevention specialist (CPPS) by Hack & Fix Academy - December 2025 [\(Link\)](#)
- Introduction to Cybercrime by Simplilearn - May 2025 [\(Link\)](#)
- Cyber-security Analyst by Forage - July 2025 [\(Link\)](#)
- Foundations of CyberSecurity- Google 2025 [\(Link\)](#)

Publications

- **Neeraj Upadhayay by Atlantis Press (Springer Nature) - December 2025** [\(Link\)](#)
- Presented an AI-powered Web3-integrated firewall research paper at an international conference, achieving 97.8% threat detection accuracy with blockchain-based security logging.

Achievements and Technical Events

- 1st Place Innovate Bharat Hackathon 2026 - Cybersecurity & Blockchain Track, Sharda University [\(Link\)](#)
- 1st Place SGU Hackathon 2026 - Cybersecurity Track, SDGI Global University [\(Link\)](#)
- 1st Place Kwala Hacker House 2025 - Solidity Blockchain Firewall for cross-chain DeFi protection [\(Link\)](#)
- Qualifier OpenAI Academy x NxtWave State-Level Buildathon, Nov 2025 [\(Link\)](#)
- Summit Sonipat Startup Summit 4.0 at AIC IIT Delhi - Rider safety innovation showcase, Feb 2026 [\(Link\)](#)
- Participated in 10+ Hackathons & Technical Events, contributing to full-stack development and AI-based solutions
- Active participant in innovation-driven events like Ignite (IILM University).
- Attended GitHub Copilot Dev Days (Ignite) at Microsoft Gurugram; gained insights into OSINT, cybersecurity, and AI-driven development.
